

# LEBANESE 180 MW SOLAR TENDER UPDATE

## OVERVIEW OF THE CURRENT SOLAR TENDER

- **265 expressions of interest** have originally been submitted to Lebanon's Center for Energy Conservation (LCEC) for a **180 MW** of tendered PV capacity
- This quantum went down to 42 candidates after selection process and strategic alliances
- Only 12 bids will be ultimately selected as the Lebanese government expects to build **12 PV plants ranging in size from 10 to 15 MW**
- The facilities will deliver power to local electricity provider Electricité du Liban (EDL) under a **20-year PPA**. The **price** of contracted power should not exceed **\$0.10 per kWh**. (Source PV-Magazine)

### Next steps

- LCEC to study the offers based on technical specs and proposed tariffs
- **Final Pre-qualified candidates** will be invited to accept a **20Y-PPA** and a **final unique tariff (still to be decided)**
- Candidates may then have to **fine-tune proposal** and/or **secure and structure financing**
- Indicative timing for preferred bidders to be released: **3 months**

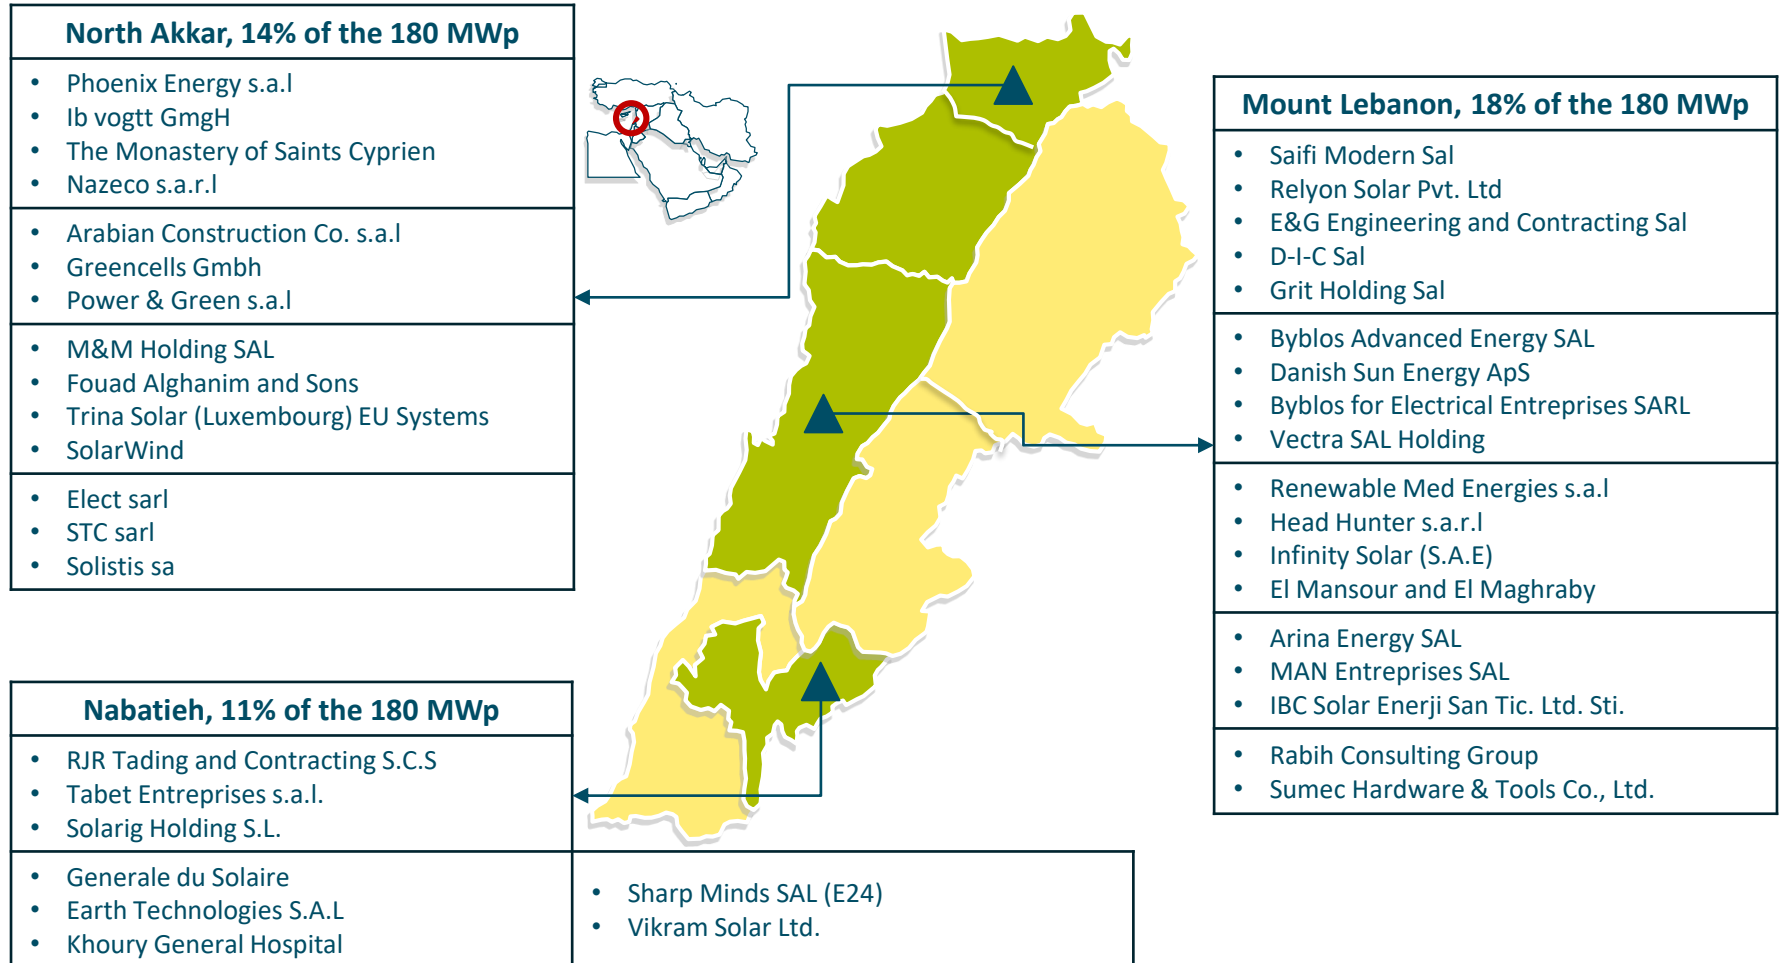

***Need financing or any further information ?***
