

Hiring – Analyst

Long term contract, based in Mexico

From March 2019

Description of the company

Finergreen is a worldwide financial advisory company specialized in renewable energy. Founded in 2013, the company has already raised € 1,1 billion of financing for over 1,8 GW of assets.

Operating on the MidCap segment (€ 10-200 M), the company relies on three main activities:

- ▶ **M&A:** Finergreen is involved in M&A "corporate" operations (sell-side with developers or buy-side with industrial and/or financial players) and on M&A "infrastructure" operations (acquisition/sale of production assets in operation and in development);
- ▶ **Project Finance:** Finergreen is involved in financing greenfield and brownfield projects (refinancing operations) both in the form of bank debt but also junior debt or additional own funds;
- ▶ **Strategic Advisory:** only activity that does not constitute transaction advisory, Finergreen assists some clients during various strategic missions: market research, independent valuation, financial due diligence, capacity building, etc.

Besides its historical activities, Finergreen is constantly expanding to new activities and new locations:

- ▶ **Energies :** Drawing on its expertise in renewable "electricity" (solar, wind, bio, hydro), Finergreen wishes to develop its activity on renewable "heat" (energy efficiency, geothermal energy).
- ▶ **International :** Since 2016, Finergreen has significantly extended its international presence through the opening of 4 new offices (Abidjan, Dubaï, Singapore, Mexico). The company is always looking for new opportunities.

Description of the position

As an Analyst, you will work directly with the Managing Director of the LatAm office and in close collaboration with the Associate in charge of this region.

You will help them on various advisory missions: equity financing or debt financing (project analysis, financial modelling, drafting of business plans and Information Memorandum documents, ad-hoc studies) and M&A deals.

As part of Finergreen's global growth and diversification, you may also be required to carry out market research, to help source projects and clients in new markets and to attend specific events to develop the company's network.

In this small company (35 people at the time of writing), you will get the chance to work in a young and dynamic environment while taking part in all the aspects of our diverse activity. You will have a key role with high responsibility and will be autonomous in the management of your mission.

Requirements

You have at least a Bachelor's degree and preferably Master's degree (or equivalent) and have followed a financial curriculum (or an engineering curriculum with some finance). You already have a two years experience in project finance in renewable energy, whether in a company, an advisory firm or an investment Fund.

You have professional and/or personal skills that can lead you to:

- Master the transactional issues of an infrastructure project (financial, fiscal, legal and technical)
- Master advanced financial modelling in Excel
- Show some commercial skills and pragmatism in business decision making
- Be autonomous when you master your subject but be able to identify and isolate a doubtful point and mobilize the necessary resources to resolve it

You speak fluently Spanish and have a very good level of English (both written and spoken). Speaking French will be greatly appreciated.

Terms

The position is based in Mexico, compensation to be discussed regarding the profile. The position is open from beginning of March 2019.

Contact

Please send a resume in English and cover letter in French to careers@finergreen.com before February 28th, 2019 with the subject "Analyst Mexico".
